PROFESSIONAL SUMMARY

Hardworking and passionate developer with a strong drive to learn, build, and grow. . Known for creativity, leadership, and a results-driven mindset. Lifelong Learner with a Growth Mindset

EDUCATION

Bachelor of Technology (Computer Science)
Newton School of Technology, Ajeenkya DY Patil University

Intermediate (Class XII)
JVM Dugarbid

Matriculation (Class X)
LKRR Prince Academy Selu

PROJECTS

Task-Manager-App, ([Github](#)) ([Demo](#)) March 2025

Task Manager Web App *Tech Stack: React.js, HTML, CSS, JavaScript*

Built a responsive and user-friendly task manager application using React.js that helps users efficiently organize and track their daily tasks. The app allows users to add, edit, delete, and mark tasks as complete or incomplete. It uses React components for modular UI, and task data is stored in the browser using LocalStorage to maintain persistence without a backend.

Key Features:

- Add, edit, and delete tasks with real-time UI updates
- Mark tasks as completed or pending
- Filter tasks by status (All, Active, Completed)
- Responsive design compatible with mobile and desktop
- Data persistence using browser LocalStorage
- Clean and modern UI using custom CSS

Personal Portfolio, ([Github](#)) ([Demo](#)) February 2025

Description: A clean and responsive website that showcases my projects, skills, and experiences. Designed to reflect my journey as a developer and my passion for learning and building. It includes sections like About Me, Projects, Skills, Resume, and Contact.

Tech Stack: HTML — CSS — JavaScript

Highlights:

- Fully responsive and modern UI
- Project and skill showcase
- Integrated resume and contact form

Furniture Website, ([Github](#)) ([Demo](#)) November 2024

Furniture Store Website

Description: A fully responsive and visually appealing website for a furniture store, built entirely by me from scratch. It showcases various product categories with clean design, smooth navigation, and a user-friendly layout — aimed at delivering a great shopping experience.

Tech Stack: HTML — CSS — JavaScript

Highlights:

- Solo-developed UI/UX and functionality
- Product listing with clean category layout
- Responsive design for all devices
- Easy-to-navigate structure with modern styling

CERTIFICATIONS

AI is not only for engineers. If you want your organization to become better at using AI, this is the course to tell everyone—especially your non-technical colleagues—to take.

SKILLS

Computer Languages: Python, JavaScript, CSS, HTML

Software Packages: React

Additional Courses: Data Structure

Soft Skills: Creativity, Decision-making, Time management, Leadership, Presentation Skills

Others: Analytics, Social Media

EXTRA-CURRICULAR ACTIVITIES

- **Active Open-Source Contributor (GitHub)** I consistently contribute to open-source projects, focusing on improving functionality, fixing bugs, and building tools using Python, JavaScript, and React. This ongoing involvement helps me stay updated with best practices and contribute to the developer community meaningfully.
- **Time Management**
Multitasking Efficiently manage academics, open-source contributions, self-learning, and personal development without compromising consistency or performance. I prioritize effectively and make the most of my time, ensuring productivity every day.
- **Content Creation**
Advertising Experience I have hands-on experience in content promotion and advertising, having worked on small-scale campaigns involving branding, outreach, and digital strategy. Strong understanding of audience psychology and value communication.
- **Former YouTube Content Creator** Previously managed a YouTube channel focused on tech and creative content. While I paused the channel to focus on academics, it helped me develop skills in video editing, audience engagement, and content delivery.
